PROFILE

Digital Product Designer with experience in UX/UI design, front-end development, and creating intuitive interfaces across web and industrial platforms. Skilled in wireframing, prototyping, and usability testing, with hands-on experience in building responsive web applications and complex operator dashboards. Strong background in visual design, content creation, and client collaboration, with a focus on delivering clear, user-friendly digital experiences.

WORK EXPERIENCE

SOFTWARE ENGINEER INTERN

Midwest Engineered Systems

August 2024 - January 2025

- Designed and developed operator interfaces with cross-functional teams, prioritizing usability, clarity, and efficiency.
- Built interactive dashboards and integrated live data streams for real-time feedback and control.
- Refined interface behavior by translating complex system logic into clear, intuitive visual responses.
- Supported device setup and troubleshooting to ensure reliable connectivity and a seamless user experience.

DIGITAL CONTENT PRODUCER

LVN Ventures

June 2021 - August 2022

- Designed seasonal catalogs, flyers, and product cards to support sales reps with clear and consistent product communication.
- Produced and edited product photography for use across digital and print platforms.
- Maintained and updated company websites by uploading products and refreshing content for a seamless user experience.
- Supported customer service by answering inquiries, fulfilling orders, managing inventory, and assisting with packaging and distribution.
